Folio SecureBack™ Protective Case & Lock - New iPad & iPad2

K67753EU

Product Description

Protect your new iPad® while on the go and lock it when you reach your destination with the Folio SecureBack™ Protective Case for iPad. The Folio case makes it easier to carry your iPad whilst also protecting it from bumps and scratches. When you reach your destination, click on the included ClickSafe® Lock to the built-in ClickSafe Security Anchor, allowing you to easily and quickly secure your iPad against theft. Simply loop the ClickSafe Lock around an anchor point and with one click secure the lock onto the built-in ClickSafe Security Anchor. Your iPad is now secure.

The integrated Folio case not only makes it easier to protect and hold onto your iPad, it also doubles as a two-position stand with viewing and typing modes. The Folio case is also easily removed in case you need to attach an Apple® Smart Cover or don't require on the go protection.

The Folio SecureBack™ Protective Case for iPad® wraps your iPad in a protective layer. What's more, the ingenuous security bar does more than protect your iPad—it was also designed with a sound deflector that boosts the volume of your iPad speaker with no additional battery drain.

The combination of a professional protective Folio case and ClickSafe(R) security makes the Folio SecureBack™ Protective Case for iPad® the ideal folio for iPad users in the office or out in the field. Leaving your iPad in an unattended meeting room, at a conference or even at your desk during a short lunch break can now be done with the peace of mind that it will be there, when you need it, upon your return.

Features

- Integrated Folio case makes it easier to carry the iPad
- Folio folds up to act as two-way stand with typing and viewing modes
- Folio is easily removed if required
